

PRICING ONE-PAGER

One page. Every program. Named prices.

The three programs published at **cohorte.co/teams**. Engine Room access included in Bootcamp and License. Founder on every enterprise engagement. Pricing fixed; scope negotiable.

Same method that doubled PwC's delivery capability in four months and drove +80% Copilot adoption over six months (60+ AI systems shipped, 4,000+ users). On your team, your stack, your compliance constraints. Not a course catalogue with a volume discount.

FUNDING (HONEST)

Cohorte is **not Qualiopi-certified today** (2026 roadmap, in progress). Direct CPF and direct OPCO funding are not available today. Most French corporate buyers use direct L&D budget. For OPCO-routed engagements, Cohorte coordinates with a Qualiopi-certified partner. Email **teams@cohorte.co** for routing.
